

## Study Club Session 2

# Achieving True Restoratively Driven Implant Dentistry Through Advances in New Pre-Surgical Prosthetic Planning Concepts

Dr. Scott Ganz

CT/CBCT scan technology has emerged as the pre-eminent method for viewing and understanding three-dimensional patient anatomy. As clinicians move from two-dimensional periapical and panoramic images into three-dimensional imaging offered through CT/CBCT technology, the need to correctly decipher these scans, discover the underlying anatomical landmarks, and plan cases properly for implant reconstruction has become apparent. For single tooth, multiple tooth, or full mouth restorations, the advantages are substantial.

This presentation will review basic and advanced concepts with state-of-the-art computer-guided software applications to diagnose potential implant receptors sites. Dr. Ganz will demonstrate how to link the simulated plan to successful and prosthetic outcomes utilizing virtual occlusion, virtual restorative components, rapid prototype models (stereolithography) and CT-derived surgical templates to achieve true restoratively driven implant dentistry. There will be an emphasis on abutment selection, abutment connection, and abutment preparation, or the "Three A's for Achieving Prosthetic Success" as it applies to pre-surgical prosthetic planning.

### ABOUT THE SPEAKER

Dr. Scott Ganz graduated from UMDNJ - New Jersey Dental School and then completed a three-year specialty program in Maxillofacial Prosthetics at M.D. Anderson Cancer Center in Houston, Texas. This was followed by 27 years of experience with the prosthetic and surgical phases of most dental implant systems available today. Dr. Ganz has delivered presentations nationally and internationally on the prosthetic and surgical phases of implant dentistry and published extensively (over 60 articles) in scientific texts and professional journals. He is considered one of the foremost authorities in the field of computer utilization for diagnostic, graphical, and treatment planning applications in dentistry, CAD-CAM, and CT/CBCT technology. Dr. Ganz has been a featured speaker for numerous organizations including AO, AAOMS, ICOI, AAID, AAMP, EAO, and the ACP. Dr. Ganz is a Past President of the NJ Section of the American College of Prosthodontists, and currently serves as Associate Editor for the peer-reviewed journal, *Implant Dentistry*, the editorial staff of *Practical Procedures and Aesthetic Dentistry*, and several others. Dr. Ganz's book "*An Illustrated Guide to Understanding Dental Implants*" available in both English and Spanish, has received wide acclaim as the standard in patient education texts since 1993. Dr. Ganz has also served on the implant faculty of many preceptorship programs around the country, is on the credentialed staff of Hackensack University Medical Center, Hackensack, NJ, and the faculty at the NJ Dental School Department of Restorative Dentistry. Dr. Ganz is a Fellow of the Academy of Osseointegration, a Diplomate of the International Congress of Oral Implantologists, and a Fellow of the American Academy of Maxillofacial Prosthetics. He maintains a private practice for Prosthodontics, Maxillofacial Prosthetics, and Implant Dentistry in Fort Lee, NJ, and is the current President of the Computer Aided Implantology Academy (CAI).

### OTHER STUDY CLUB SESSIONS

*Study Club Session 1*

Dr. Dennis Tarnow

Friday, January 8, 2010

*Study Club Session 3*

Dr. Lyndon Cooper

Friday, November 19, 2010

## COURSE DETAILS

### Date

Friday, June 4, 2010  
8:00am to 4:30pm  
Breakfast, Buffet Lunch, and Snacks provided

### Location

Hilton Suites Toronto/Markham Conference  
Center and Spa  
8500 Warden Avenue, Markham, ON  
L6G 1A5  
Tel: 905.470.8500  
*Block rate of \$125 (includes room and parking) available at the  
hotel. Please ask for "Toronto Implant Institute" block rate*

### Cost

Doctor: \$595 CDN + GST

### CE Credits

This program is eligible for RCDSO & AGD credit  
points per day for Ontario dentists who attend

Academy of General Dentistry  
Approved PACE Program Provider  
FAGD/MAGD Credit  
12/1/2008 to 11/30/2011

## STUDY CLUB MEMBERSHIP

### How do I become a member of the Ti<sup>2</sup> study club?

Sign up for all three of our study club sessions and you automatically become a member \*\*

### Why become a member?

As a study club member, some of the benefits include:

- ✿ world renowned speakers
- ✿ continuing education points with RCDSO and AGD
- ✿ 10% off on all of our courses within the same calendar year of membership
- ✿ treatment planning and case discussions
- ✿ observation of surgeries performed in office
